Jennifer | my MS story

Imagine one day you are ready to take on the world, and the next you are faced with the diagnosis of an incurable and debilitating disease. It happened to me during junior year of college. I thought I would never finish school, let alone walk again.

This year will be my ninth Bike MS ride and my eleventh year living with MS. I ride because so many are suddenly struck down with MS and many are left unable to do daily tasks. I may have MS, but MS does not have me!

Each pedal stroke is for those who are physically unable to join us on the road but cheer us on throughout the ride. I love sharing the finish line with others who have MS because we are all champions. Every finish line we cross brings us closer to a cure.

bike to
create a world
free of MS
